T7P Terminal

integrated POS terminal and printer from Hypercom

T7P Features:

❑ Small footprint takes up less counter space

❑ Easy-to-learn, simple-to-use 35-key keyboard

❑ Fast transactions and authorizations

❑ Clerk-friendly operations, easily changed paper and ribbons

❑ Cashier-replaceable printer module

❑ High visibility 2 x 20 backlit LCD display

❑ Full Track 1 and 2 card reader standard

❑ Field-proven, high reliability

❑ Smart card reader option (T7PS), EMV-certified

The T7P is designed for upgrading authorization-only equipment and for merchants moving to data capture and debit applications. It features an integrated modular impact or quiet thermal printer. T7P can read all types of credit, debit, check and charge cards, and an external PIN pad can be attached to support cardholder entry of PIN numbers. Dedicated function keys allow one-step operation of everyday processes.

Price/performance benefits of the T7P include savings on user training, reduced telephone line costs, and shorter processing and settlement times. The T7P also accommodates new software applications demanded by the marketplace which can be remotely downloaded from a sophisticated Terminal Management System.
