

Think Big Picture

See Unlimited Possibilities.

MXSolutions

 **VeriFone**[®]
THE WAY TO PAY[™]

Generate New Revenues and Enhance Customer Loyalty with VeriFone's MX Solutions.

One platform. Endless possibilities.

Imagine holding a consistent dialogue with customers throughout your store. Presenting MX Solutions. A single family of devices, peripherals and software designed to work together toward a common goal—empowering customers in multiple locations throughout multi-lane stores.

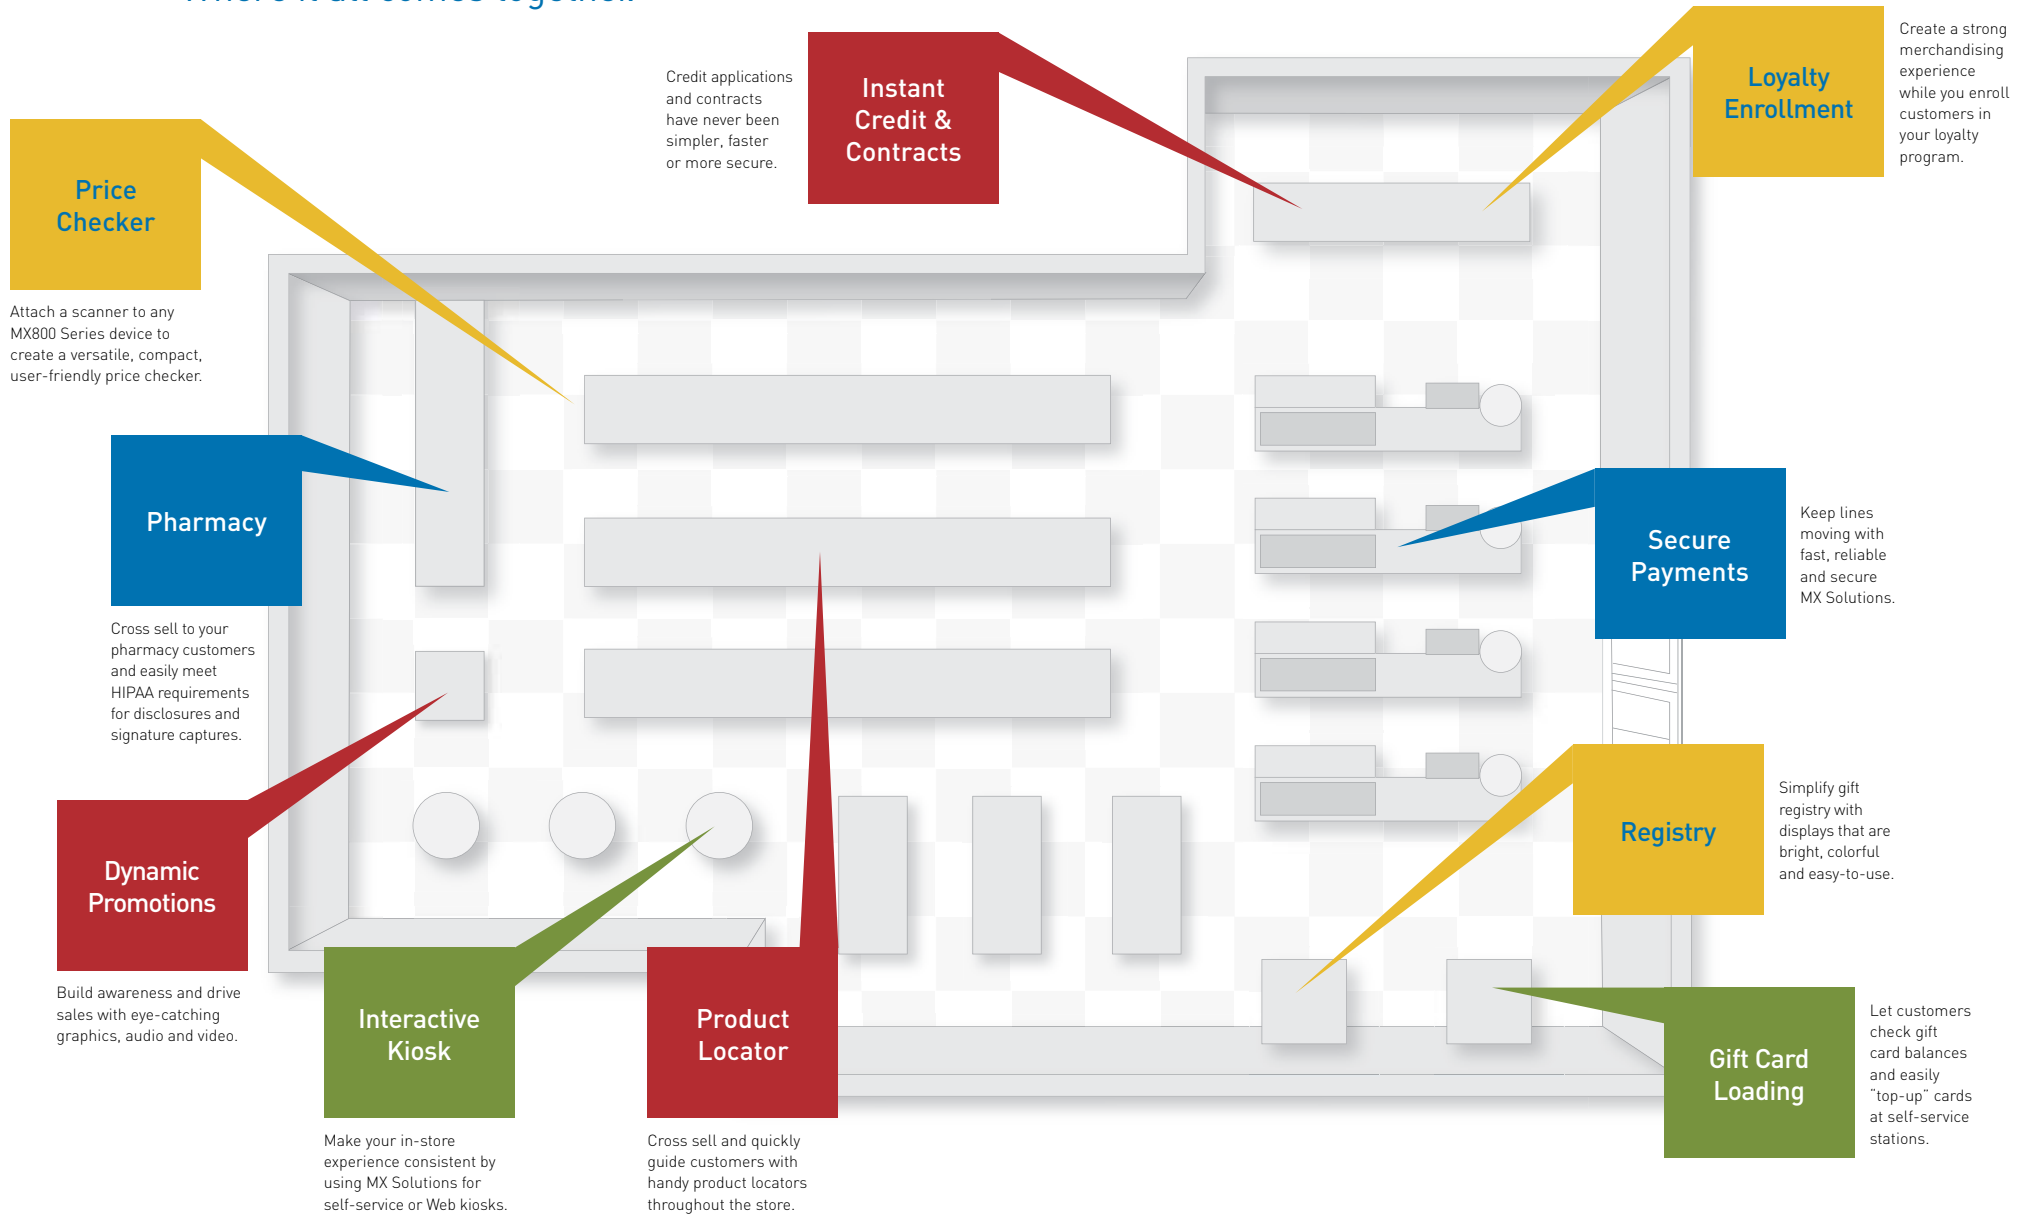

While ordinary POS devices simply process payment and payment-related transactions, with MX Solutions payment is only the beginning. These ground-breaking devices are loaded with the latest in technology to give you virtually endless ways to improve efficiency and your bottom line. Powerful, reliable, secure, durable, and globally ready to meet the demands of today's complex marketplace—MX Solutions is destined to become one of your most valuable assets.

With VeriFone's MX Solutions, you'll have:

- One consistent, compatible platform—one vendor that offers a complete solution: MX800 Series of payment devices, peripherals, and PAYware software.
- Large, bright, customer-friendly displays.
- Common user interface at all touchpoints.
- The ability to deliver messages or multimedia promotions to the point of sale or service.
- A complete line of products with wide-ranging upgrade possibilities.
- Unparalleled, professional service.

Simply put, with VeriFone's MX Solutions, your countertop devices work as hard as you.

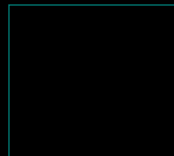

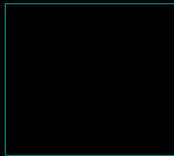

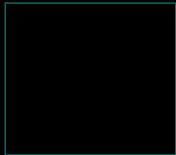

The multi-tasking MX Solutions. Where it all comes together.

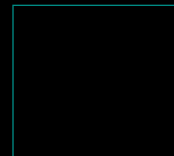

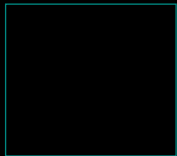

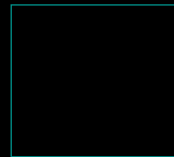

About MX Solutions.

Ideal for multi-lane retailers and specialty stores as well as for point-of-service environments, MX Solutions offers vital marketing tools, improved operational efficiencies and a lower cost of ownership. With a broad portfolio of different applications and devices that can be mixed and matched in any combination anywhere in the store, MX Solutions operates on one software platform, providing easy integration and a single point of control, making it simple to create and customize customer touchpoints with multiple uses. Along with a common user interface, which dramatically simplifies use, devices are modular, easily upgradeable, and interchangeable to give retailers maximum flexibility for multiple uses anywhere in the store.

MX Solutions. BECAUSE THE POINT *IS* SALES.

About VeriFone.

VeriFone is a global leader in secure electronic payment technologies. We provide solutions, services, and expertise that enable electronic payment transactions and value-added services at the point of sale and in self-service applications.

Our devices and systems process a broad spectrum of payment types including signature- and PIN-based debit cards, credit cards, EMV smart cards, contactless, value-added applications, and signature capture. Our solutions incorporate existing and emerging technologies, comply with the latest global security standards, and take advantage of every connectivity option from Wi-Fi to IP-enabled devices.

VeriFone Holdings, Inc. is traded on the New York Stock Exchange (PAY). We operate with a network of more than 40 sales and marketing offices and over 30 development centers throughout the world—in North America, the Caribbean, Europe, the Middle East, Africa, Asia, and the Pacific Rim.
